WAR BLOOD MONEY.

The people of this country are all
 much opposed to the war now going on
 in Europe. President Wilson has ap-
 pealed to Germany in the "name of
 humanity" to cease their destructive
 submarine warfare or keep it within
 the bounds of international law.

Owing to the peculiar position in
 which Germany is placed by the super-
 ior naval strength of her enemies, it is
 something of a task to keep within
 the bounds of international law and
 accomplish much.

England has violated international
 law relative to our ocean going trade,
 and while the government at Washing-
 ton has remonstrated with Great Brit-
 ain, no action has been taken by
 England to deviate from her lawless
 course. It is hard for England to ad-
 here strictly to international law and
 accomplish what she is aiming at.

The real facts are that warfare has
 grown along unexpected lines so rapid-
 ly that the principles of international
 law are hard to observe by any of the
 warring powers unless they are will-
 ing to largely nullify the plans they
 deem most necessary to injure the en-
 emy.

The United States is just as guilty—
 so far as the principles of humanity
 and justice go—as is England or Ger-
 many. In this country a large number
 of factories that have been making
 tools of peace have converted their
 plants into factories for implement of
 war. That course is entirely within
 the rights and privileges of interna-
 tional law. But how about the real
 justice of the matter?

One prominent writer has figured it
 out that for every nine dollars of profit
 our munitions manufacturers make
 they kill seven men. (See article in
 this issue.) No one can justify such
 action when weighed in the balance of
 right and humanity.

In spite of the fact that every think-
 ing person knows the profits our mun-
 itions factories are turning out is the
 bloodiest blood money that any people
 ever took, no voice goes up from
 Washington or any person in authority
 even asking our munitions factories to
 cease furnishing war material to the
 warring nations.

If the United States intends to stand
 for humanity in fact we will do all
 possible to stop the manufacture and
 sale of war material. Some people
 claim that for us to refuse to furnish
 war munitions would be a distinct vio-
 lation of international law, but no one
 claims it would not be done in the in-
 terest of humanity.

Again, others claim for us to cease
 selling England and her allies war
 munitions would be acting directly in
 favor of Germany. Whether or not
 either of the statements be true, if
 this great government intends in fact
 to stand for humanity or only "thun-
 ders in the index" depends on whether
 or not we sell war materials to the
 fighting armies.

It is blood money of the most vile
 type and no one can successfully deny
 it. Regardless of whom it fits or fa-
 vors, this country should not furnish
 war munitions to any warring country
 for by so doing we are assisting in the
 slaughter of countless thousands of
 men. All this talk about "humanity"
 is horse play and is the rankest hypoc-
 risy.

Former governor M. R. Patterson
 has assumed the "Barkus is willin'"
 attitude of trying to separate Luke
 Lea from his United States senatorial
 job. He is a very dangerous opponent
 for Senator Lea.

FAMILY AVOIDS
SERIOUS SICKNESS

By Being Constantly Supplied With
 Theford's Black-Draught.

McDuff, Va.—"I suffered for several
 years," says Mrs. J. B. Whittaker, of
 this place, "with sick headache, and
 stomach trouble."

Ten years ago a friend told me to try
 Theford's Black-Draught, which I did,
 and I found it to be the best family medi-
 cine for young and old.

I keep Black-Draught on hand all the
 time now, and when my children feel a
 little bad, they ask me for a dose, and it
 does them more good than any medicine
 they ever tried.

We never have a long spell of sick-
 ness in our family, since we commenced
 using Black-Draught."

Theford's Black-Draught is purely
 vegetable, and has been found to regu-
 late weak stomachs, aid digestion, re-
 lieve indigestion, colic, wind, nausea,
 headache, sick stomach, and similar
 symptoms.

It has been in constant use for more
 than 70 years, and has benefited more
 than a million people.

Your druggist sells and recommends
 Black-Draught. Price only 25c. Get a
 package to-day. N. C. 423

WAR SITUATION.

Little activity has been manifest in
 any of the war zones other than the
 region around Warsaw, the capitol of
 Russia Poland. Three armies are fight-
 ing to take Warsaw while the Russians
 are offering stubborn resistance while
 removing as much war material and
 machinery for making munitions of
 war as possible. The Germans are
 said to be within 25 miles of Warsaw
 on the north and little hope of the Rus-
 sians being able to hold the city re-
 mains.

Austrian and German submarines
 have sunk several vessels within the
 past week, but the main interest is
 centered around Warsaw. The Italians
 have made some headway against the
 Austrians. There has been no special
 activity in the Dardanelles or on the
 western war front the past week.

MAKING LAST FIGHT.

Attorneys for Charles Becker, the
 New York police lieutenant convicted
 with conspiring at the death of Her-
 man Rosenthal, a gambler, about two
 years ago, are making their last fight
 for a new trial. There seems to be
 little hope that he will win. A com-
 mutation by the governor of New York
 has been abandoned as he has refused
 after going thoroughly into the case.
 Becker has been sentenced to hang
 today.

IS SICKNESS A SIN?

If not, it's wicked to neglect illness
 and means of relief. It's wicked to
 endure liver ills, headache, indigestion,
 constipation, when one dose of Po-Do-
 Lax gives relief. Po-Do-Lax is Po-
 dophyllin (May Apple), without the
 gripe. It arouses the liver, increases
 the flow of bile—Nature's antiseptic
 in the bowels. Your constipation and
 other ills disappear overnight because
 Po-Do-Lax has helped Nature to re-
 move the cause. Get a bottle from
 your druggist today. Get rid of your
